

PRESS RELEASE

Green light for A+A 2017: Sympatex and Diadora Utility to present their first partner products for occupational safety

Diadora, the Italian shoe brand, will cooperate with the functional specialist from now on. The Diadora Utility occupational safety line will be the first series together with Sympatex.

Munich / Unterföhring, 10 October 2017 Sympatex Technologies and Diadora Utility will present their first partner products at the A+A international occupational safety trade fair taking place in Düsseldorf from 17 to 20 October 2017. The first model series will be launched in the (occupational) safety shoes segment as the beginning of the cooperation with Diadora, the Italian shoe brand. The first occupational safety boots with the 100% waterproof and windproof as well as optimally breathable “guaranteed green” Sympatex membrane will be presented at the Sympatex booth (hall 11 booth A22).

Innovative Moisture-Tech® shoe technology by Sympatex

The new Italian shoe partner decided to use Moisture-Tech® by Sympatex right from the beginning of the cooperation with Sympatex. The highly functional shoe technology ensures optimal micro-climate and is in particular suitable for safety shoes. The extremely absorbent material guarantees that moisture is quickly wicked away from the foot. Due to the outward suction effect, it cannot reenter the inner lining offering the following benefits: high wear comfort and dry feet for maximum performance in all weathers.

About Sympatex

Guaranteed Green – The Sympatex climate-neutral and recyclable membrane

As one of the worldwide leading producers, Sympatex® Technologies has been a synonym for high-tech functional materials in clothing, footwear, accessories and technical fields of application since 1986. Together with selected partners, Sympatex develops, produces and distributes membranes, laminates and functional textiles as well as finished products worldwide. The Sympatex membrane is highly breathable, 100% wind- and waterproof and regulates the climate. It is 100% recyclable, bluesign® certified, and it received the 'Öko-Tex-Standard 100' certificate. It is also PTFE-free and PFC-free. The technologies and procedures are based on the principles of ecological responsibility and sustainability with a special focus on the optimal carbon footprint. Sympatex is represented worldwide with sales offices and branches. www.sympatex.com
