Sympatex Claim:
Re>Close the loop. Together.

Let's face it, the last couple of years have been a rollercoaster. The world has changed and not only for the better. While more people than ever live in deceptive prosperity, our fast-paced, performance-oriented society has left massive environmental traces.

**From now on we have to explore different ways.
There can't be performance without sustainability.**

Sympatex wants to make sure that we are doing business right. Using our brand-power to turn new ideas into reality. This often takes creativity and courage. Creativity to imagine our world differently.

We don't stop at ourselves here either and are constantly questioning our own status quo. Through the last couple of months we've created a new brand design with power and attitude. A strong foundation for the challenges that lie ahead.

We are now ready to share the new Sympatex with you our partners.

Please do not hesitate to contact us if you have any questions regarding the new design.

**Let's start a new chapter in our joint efforts to make a difference.
Let's be the first generation to Re>Close the loop. Together.**
